VILLAGE OF GRAFTON 2026-2030 CAPITAL IMPROVEMENT PROGRAM

Project Request

Project Title: Body Worn Camera/In Squad System Financing Payments		Year: 2026-2027
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
In 2021, the department applied for and was awarded a grant for \$44,000 to help defray the cost of new body worn cameras. We budgeted and were authorized \$30,000 in 2022 and \$30,000 in 2023 to purchase the new systems. In the end, the costs were greater than what was expected. Axon, our chosen vendor, offered a finance program that would help get the new system implemented. This finance option spread the remaining payments out through 2027 to lessen the burden in one or two budgets. During the term of the finance period, we will receive updates to the system and can upgrade to newer technology should Axon change the platform. At the end of 2027 we will own the tasers and will make a decision then as to replacement schedule.

VILLAGE OF GRAFTON 2026-2030 CAPITAL IMPROVEMENT PROGRAM

Project Request

Project Title: Elevator Parts Replacement		Year: 2029-2030
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815

PROJECT DESCRIPTION

Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):

The elevator in the PD building has been in operation since 2008 and has served the building well. However, it is now critical to address the aging infrastructure to ensure continued safety, reliability, and efficiency. The increasing maintenance costs coupled with the potential for catastrophic failures in key components necessitate a comprehensive upgrade of the elevator's critical components. Several key components have already shown signs of failure, and without timely intervention we risk needing a complete system replacement. Such an event would be significantly more costly than targeted component replacement. By investing in critical components now, we can extend the lifespan of the existing elevator while avoiding a larger, more disruptive investment in a new elevator.

With over 15 years of operation, the wear and tear on critical components such as motors, control systems, cables, and brakes presents significant risks. Failures in these areas could create unsafe situations for passengers, including entrapments or accidents. By proactively replacing these components we ensure compliance with current safety standards and regulations. Our current elevator repair vendor believes it would be more beneficial from a cost standpoint to replace the aging components. However, they also indicated that based on inspection reports the project could wait until 2029-2030. Therefore, we are hoping we could spread the replacement of parts over two years.

VILLAGE OF GRAFTON 2026-2030 CAPITAL IMPROVEMENT PROGRAM

Project Request

Project Title: Exterior Painting		Year: 2027
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
The police department is open 24/7 365 days per year. The exterior paint on the building is showing extreme weather fading. The color is outdated and does not offer a professional appearance. It is unknown when the last time the building's exterior was painted. We estimate it was painted in 2008 when the building was remodeled; however, we could not find documentation as to when it occurred. Because this is a professional Village office and is clearly visible to the public and is regularly used by the public for meetings and other gatherings, it is important that we maintain a professional image. The estimate includes all painted exterior siding, flashings, and gutters.

VILLAGE OF GRAFTON 2026-2030 CAPITAL IMPROVEMENT PROGRAM

Project Request

Project Title: Firewall Replacement		Year: 2028
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
This request allows us to replace the existing aging firewall needed for security of our network systems per FBI and state requirements. The current firewall will have reached the end of its serviceable life by the end of 2028. The existing warranty will be expired and the cost to repair the system will likely be greater than the cost of a replacement system.

VILLAGE OF GRAFTON 2026-2030 CAPITAL IMPROVEMENT PROGRAM

Project Request

Project Title: Flock Safety Auto License Plate Readers Lease Payments		Year: 2026-2030
Replacement ☐ New ☒ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815

PROJECT DESCRIPTION

Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):

In FY 2021, the Village Board authorized the Police Department to acquire via a lease program, five (5) Automatic License Plate Reader cameras through Flock Safety. These cameras are strategically placed throughout the village and are used to assist in the investigation and apprehension of subjects involved in crimes committed in the Village of Grafton and surrounding communities.

In FY 2024, the Village Board authorized the Police Chief to sign a five-year agreement with Flock Safety that would lock in the price per camera at \$2500 instead of increasing to \$3000. This agreement also allows us to purchase new cameras at the \$2500 price. We added a camera in 2023 and 2024. We expect to add one additional camera in 2028, bringing our total Village leased cameras to eight (8) by 2028. 2029 marks the end of our five year lease. We plan to continue leasing the cameras and have budgeted a price increase with the new lease.

VILLAGE OF GRAFTON 2026-2030 CAPITAL IMPROVEMENT PROGRAM

Project Request

Project Title: Flooring Replacement		Year: 2028
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
The police department is open 24/7 365 days per year. Because of this, there is heavy foot traffic in the building. The flooring was replaced in 2008 when the building was remodeled; however, Wisconsin weather does not help with maintaining the integrity of the flooring, especially the carpet. Several areas within the police department have frayed, torn, or worn carpet and/or laminate flooring. Many of these areas are in office spaces, especially where office chairs are used daily. Because the office is open to the public and is regularly used by the public for meetings and other gatherings, it is important that we maintain a professional image. Based on an estimate received in April 2023, it would cost roughly \$78,000 to replace all the flooring on the main level of the police building. We added 6% for inflation.

Project Title: HVAC Upgrades		Year: 2026-2027
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
Over the last several years our HVAC units have become increasingly inefficient, contributing to high energy consumption and elevated operating costs. While it's hard to determine the exact energy costs, we have experienced higher than normal energy bills and can assume its because of the inefficient HVAC systems and chronic failures to regulate the building temperatures. These units, originally installed nearly 20 years ago, are well beyond their expected service life of 10 to 15 years. As a result, we have encountered frequent failures and costly repairs. In just the past three years, repair costs have exceeded \$50,000. Modern HVAC systems are engineered for optimum energy efficiency. New air conditioning units leverage advanced technologies that can significantly reduce energy consumption by 20-50% compared to units that are a decade old. Likewise, upgrading to high-efficiency boilers will yield substantial energy savings, leading to lower utility bills and a reduced carbon footprint. Estimates provided by our current HVAC maintenance provider are as follows: Boilers \$104,500 Replacement of AC units and coils on the existing air handler \$65,000 We propose replacing the AC units in 2026 and the boiler in 2027.		

Discussion of Impact on Operating Budget including if additional staff is needed:													
WE Energies costs over the last several years: 2021: \$24,137 2022: \$32,472 2023: \$35,382 2024: \$36,018	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <th style="text-align: left;">Item Replaced</th> <th></th> </tr> <tr> <td>Model</td> <td></td> </tr> <tr> <td>Make/Model</td> <td></td> </tr> <tr> <td>Age</td> <td>15+ years</td> </tr> </table>	Item Replaced		Model		Make/Model		Age	15+ years

Project Request

Project Title: In-House Surveillance Upgrade		Year: 2027
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
This request allows us to upgrade and replace the surveillance camera system in the Police Department Building which is used for monitoring all areas of the building. This will also replace the DVR purchased in 2020, which will have reached the end of its serviceable life. The upgraded unit will enhance records backup capability and reduce the potential for failure and data loss. Law enforcement is mandated by law to ensure all interactions and interviews of person arrested are recorded, therefore it is critical that this system remain current.		

Discussion of Impact on Operating Budget including if additional staff is needed:		<table border="1" style="width: 100%; border-collapse: collapse;"> <tr><td style="text-align: center;">Item Replaced</td><td></td></tr> <tr><td style="text-align: center;">Model</td><td></td></tr> <tr><td style="text-align: center;">Make/Model</td><td></td></tr> <tr><td style="text-align: center;">Age</td><td></td></tr> </table>	Item Replaced		Model		Make/Model		Age

Project Request

Project Title: Interior Painting		Year: 2026
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
The police department is open 24/7 365 days per year. The building walls were painted in 2008 when the building was remodeled. Because of the normal wear and tear from being open 24/7, the walls are scratched up, knicked, and scuffed, leaving an unprofessional appearance. In addition, the wall colors do not create an inviting space, which has a detrimental affect on staff mood and wellness. Because the office is open to the public and is regularly used by the public for meetings and other gatherings, it is important that we maintain a professional image. The estimate includes only the main level of the building.		

Discussion of Impact on Operating Budget including if additional staff is needed:

VILLAGE OF GRAFTON 2026-2030 CAPITAL IMPROVEMENT PROGRAM

Project Request

Project Title: Kitchen/Breakroom Remodel		Year: 2029
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
The police department is open 24/7 365 days per year. We currently have 28 regular full-time employees. The breakroom area is small, outdated, lacks storage and counter space, and is not a relaxing environment for employees to enjoy their meals. This portion of the building was not remodeled in 2008 when the main level was remodeled. We are planning to expand the breakroom by removing the wall separating the old dispatch center and existing breakroom. We will relocate all the existing furniture, computers, and consoles in the dispatch center to the records room to improve efficiency. This will allow us to expand the breakroom, giving our staff more room to eat their meals and provide them a place to gather to relax and socialize. We will redo the kitchen area by adding the following: increase counter space and allow for a coffee bar, an oven/stove for cooking with outside ventilation, a commercial sink and disposal system, commercial dishwasher, new commercial refrigerator, and new lighting.		

Discussion of Impact on Operating Budget including if additional staff is needed:													
	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td colspan="2">Item Replaced</td> </tr> <tr> <td style="width: 50%;">Model</td> <td></td> </tr> <tr> <td>Make/Model</td> <td></td> </tr> <tr> <td>Age</td> <td>17 years</td> </tr> </table>	Item Replaced		Model		Make/Model		Age	17 years

VILLAGE OF GRAFTON 2026-2030 CAPITAL IMPROVEMENT PROGRAM

Project Request

Project Title: Personal Protective Gear Replacements		Year: 2026-2030
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815

PROJECT DESCRIPTION

Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):

Personal Protective Gear can include all of the following items: body armor, plates, helmets, plate carriers, and gas masks. This request includes replacement of expired body worn armor each year. We currently have a five-year (5) replacement policy on body worn armor. Below is the breakdown by year for each purchase.

27 Body armor replacements \$981/ea - (5) in 2026, (5) in 2027, (5) in 2028, (7) in 2029, (5) in 2030

27 Carriers \$500/ea - (5) in 2026, (5) in 2027, (5) in 2028 (7) in 2029, (5) in 2030

2 SRT (Special Response Team) plate carriers \$500/ea - (2) in 2027

The village's allotted contribution toward each vest is \$1,481 (body armor is \$981 and carrier is \$500). The Bureau of Justice Assistance (BJA) offers a Bulletproof Vest Partnership (BVP) program that reimburses the Village half the total cost of the vest and carriers. We have been a participating member of this program for many years and we plan to continue this partnership well into the future so long as the program is offered.

Project Request

Project Title: Records Server Replacement		Year: 2026
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
This request allows us to replace the records server that was purchased in 2017. The server will have reached the end of its servicable life. The records server is the most critical piece of our infrastructure and network. All police records are stored on this server. Should we experience a hardware failure, we will likely lose a signifcant amount of data. The Police Department will continue to work with Taylor Computer Services and administration to evaluate the financial feasibility of moving our data to the cloud.		

Discussion of Impact on Operating Budget including if additional staff is needed:

Project Title: Squad Laptops/Mobile Data Computer (MDC) Replacement		Year: 2026
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
This request allows us to replace the mobile data computers (MDC) that are currently in the patrol cars. The current computers were purchased in 2017. The computers are used on a daily basis and under extreme conditions. They have reached the end of their serviceable life and the model we currently have is no longer being produced, making it difficult, if not impossible, to find replacement parts. Typical replacement schedules for this type of technology is five to seven years depending on use. These computers will have been in service for seven years. Some of these MDCs were replaced in 2024. This request is for the remaining four patrol cars. Per vehicle cost breakdown includes: Laptop - \$2,720 Mounting Kit - \$422

Project Request

Project Title: Taser Replacement Financing Payments		Year: 2026
Replacement ☒ New ☐ (If yes, discussion of Impact on Operating Budget and Operating Cost Analysis must be completed)		
Department: Police	Budgetary Fund: Capital Equipment	Account Number: 410.521000.815
PROJECT DESCRIPTION		
Justification (include type of capital item being replaced and current use, plan for asset being replaced, and reason for purchase):		
In FY 2021 we identified problems with existing conducted energy weapons (TASER). The units were outdated and had reached the end of their serviceable life. With the emphasis on safety, we replaced the units with the newest technology offered by our existing TASER vendor, Axon Enterprises. The total cost of the replacement units, including replacement cartridges, training cartridges, and a body worn training suit was \$43,200. We had savings in the FY 2021 budget to cover a portion of the costs; however, those savings were not enough to pay the entire amount. We took advantage of Axon's financing option which allowed us to acquire all equipment at a discounted rate with a known payment amount. This request provides funding for the financing payments related to the new TASERs and associated equipment at a annual cost of \$8,640 for a period of five years. The financing program is complete in 2026 and we will own them at that point.
